About YILMR

Help us to help you.

To develop entrepreneurship in the area of dairy business, YILMR started online & off line Yawye institute of Livestock Management & Research (YILMR) that would improve productivity, profitability & sustainability among all corporate, large, medium & small dairy farmers.

At YILMR, our team is a mix of veterinary and technology experts, nutritionists, technical consultants, researchers and functional staff. A balanced mix of experienced and young minds gives us the edge for today business & gearing up for tomorrows challenges.

Ensuring health and productivity of livestock animals is our priority. We always believe in sharing technical knowledge and collaborating with technocrats for the benefits of livestock industry and producer to make the things easier, faster, better, and economical.

Our culture is driven by relentless pursuit of the highest standards of integrity, responsibility, accountability, and quality. Innovation & customer satisfaction are the benchmarks by which our success is measured.

YAWYE team holds the first-hand experience in dairy farm management, clean milk production, clean milk procurement, dairy processing, milk quality management, milk products development, supply chain, cold chain management and dairy waste management.

Mission

To provide healthy lifestyle to people while creating entrepreneurship among dairy farmers

Vision

To be a leading healthy food producer company for better life

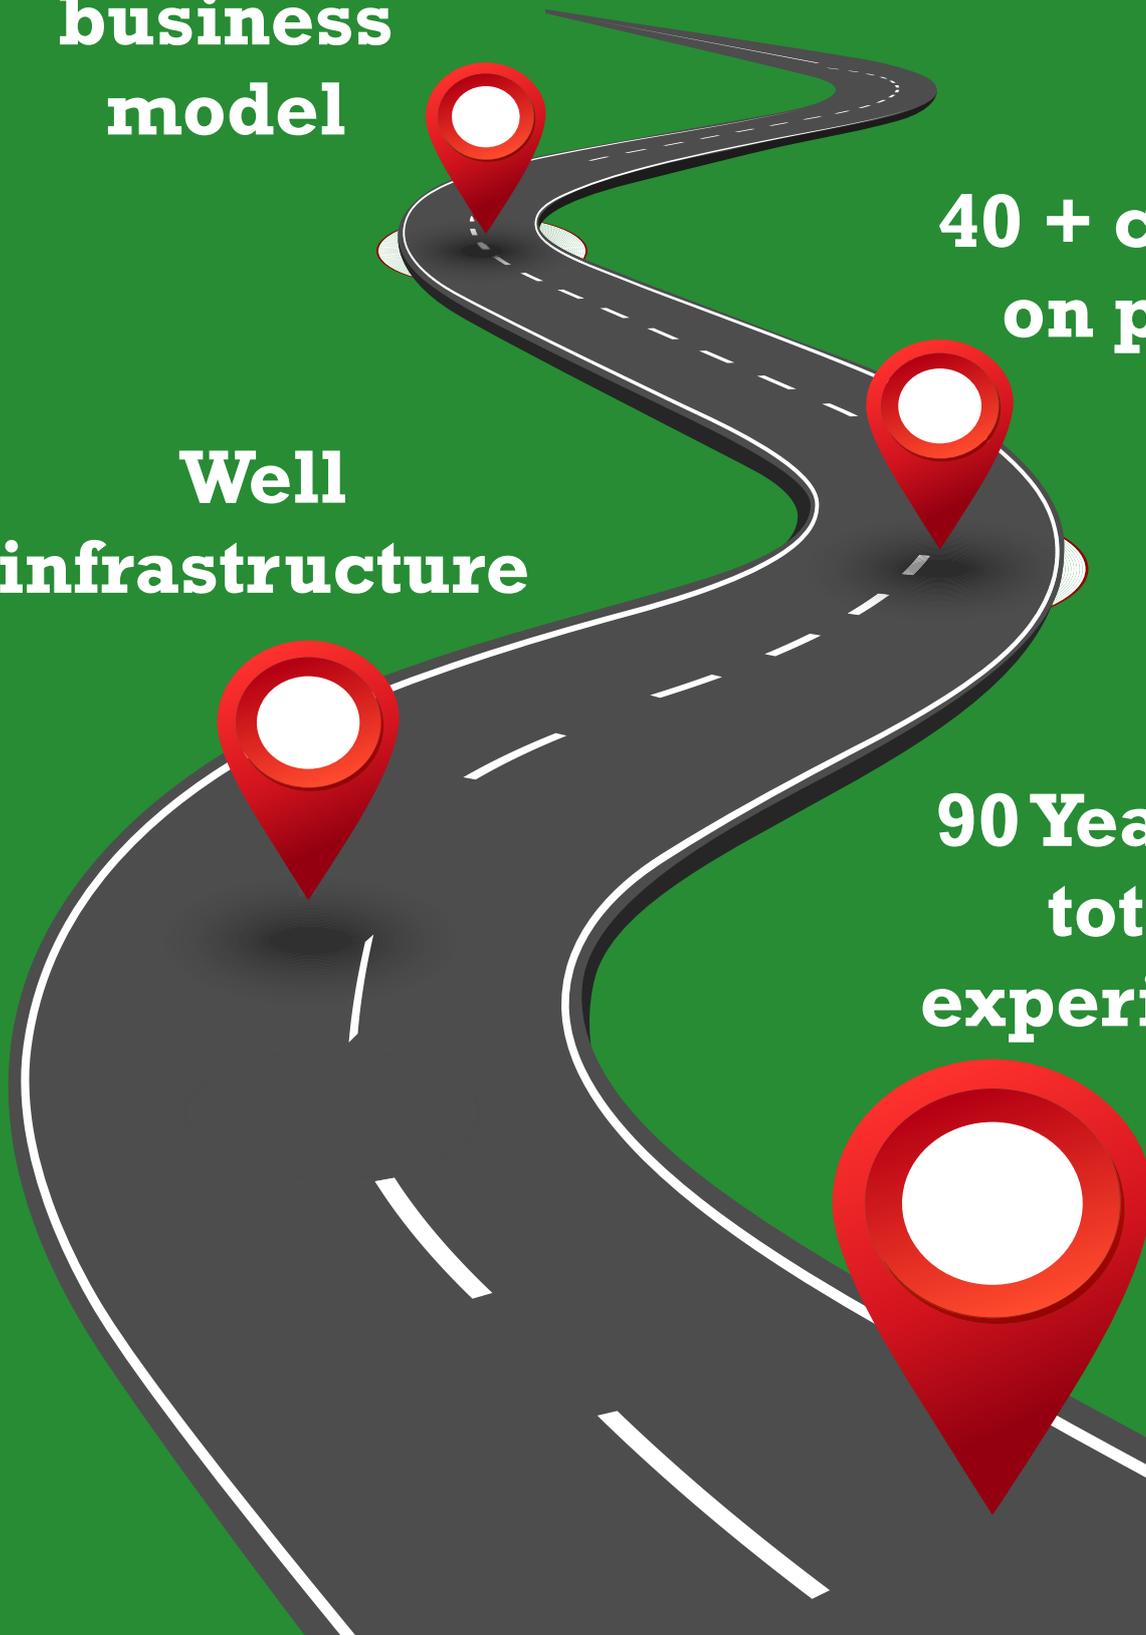

Why YILMR...

**Complete
business
model**

**40 + courses
on portal**

**Well
infrastructure**

**90 Years of
total
experience**

Program Highlights

Right Content

Course is designed at multi fold level as per customer need and experience, will help to choose right model.

Learn & Experience

Course types are online, offline and hybrid will help you to choose right course as per your requirement.

Hands on learning

Experimental learning with 100 % practical approach during offline course will help you better learning.

Industry Experts

All our trainers are experts in relevant field and professionally experienced from the bigger organizations

Proven Experience
